

Michigan Community College High School Enrollment

Fall 2022 Semester Community College Headcount* - High School Students

**Note: This chart shows the percentage of Community College students who were attending high school when they enrolled in the Fall of 2022, which is not the same as the percentage of dual enrollment students as some of the students reflected in this chart are early-middle college students or may be participating in other programs that aren't defined as dual enrollment programs per se.*
