This appropriation unit was renamed to "Energy and Utility Programs" in FY 2015-16 following the creation of the Michigan Agency for Energy through Executive Order 2015-10. The Agency was moved to the Department of Environment, Great Lakes, and Energy by Executive Order 2019-2.

The Public Service Commission (PSC) is a three-member, Governor-appointed (six-year) Commission which regulates all public utilities and motor carriers in the State except those restricted by law. Regulation of this industry includes the responsibility to set rates, fares, fees, charges, and services. Public utilities include electric light and power companies, local telephone service, and oil and gas pipeline companies. Additionally the Commission is responsible for registering motor carriers of property. In FY 2009-10 the METRO Authority line item was moved under this appropriation unit. The METRO Authority was replaced with the Local Community Stabilization Authority under PA 86 of 2014.

The Liquor Control Commission was created under PA 8 of 1933. The Commission consists of five members appointed by the Governor with the advice and consent of the Senate for staggered four-year terms. Of these five members, no more than three may be of the same political party. Michigan is a "control" state which means that the Commission is responsible for controlling alcoholic beverage traffic including the manufacture, importation, possession, transportation, and sale of alcohol within the State. Primary funding for this unit comes from the Liquor Purchase Revolving Fund which receives revenue from the collection of specific and excise taxes on beer wine, distilled, and mixed spirits and a 65.0% markup on distilled spirits. The balance of this Fund then is deposited into the General Fund at year end. Other revenue includes the liquor license fees that are collected from all retail and nonretail establishments selling alcohol products in Michigan.
