This report was prepared pursuant to Section 212(3) of Article 8 of Public Act 154 of 2005, the Higher Education article of the omnibus appropriations act for fiscal year 2005-06.

Section 212(3) states the following:

A detailed description of procedures utilized to arrive at the amounts appropriated in part 1 shall be submitted to each institution by the senate and house fiscal agencies.

This report was written by Kyle I. Jen, Senior Fiscal Analyst, House Fiscal Agency, and Ellen Jeffries, Deputy Director, Senate Fiscal Agency. Barbara Graves, Budget Assistant, House Fiscal Agency, prepared the report for publication.

* Throughout this report, FY 2004-05 Year-to-Date figures reflect post-EO 2005-7 levels and exclude \$43.0 million of tuition restraint funds originally appropriated in FY 2003-04 but paid in FY 2004-05.

A. OPERATIONS FUNDING

The Governor recommended funding levels for each state university equal to the amounts remaining in FY 2004-05 following Executive Order 2005-7, which reduced each university's appropriation by 1.76% from the original FY 2004-05 enacted amount and shifted a \$5.6 million allocation from Wayne State's appropriation for psychiatric research and training to the Community Health budget, minus funding included in the universities' appropriations for King-Chavez-Parks purposes and the National Charter Schools Institute (see items C and E below).

The House utilized a new funding model to determine university funding amounts. The funding model has enrollment-, degree-, and research-based components. Both positive and negative changes from the amounts recommended by the Governor were limited to 5.0%. The net funding increase resulting from the model was \$11.9 million.

The Senate established a funding floor of \$3,750 per fiscal-year-equated student (FYES); provided funding increases based on job placement, degree, and research data; and reduced the appropriations for Northern Michigan and Wayne State based on funding-per-FYES comparisons with peer institutions. The net funding increase resulting from these adjustments was \$14.4 million.

The Enacted budget includes three sets of positive adjustments from GF/GP revenue:

(1) Across-the-board increases for all 15 universities totaling \$2.5 million. This adjustment ensures that, following the anticipated restoration of \$11.3 million to the universities' FY 2004-05 appropriations at state book closing, each university will receive at least the same amount of state funding in FY 2005-06 as it received in FY 2004-05 (gaps of a few hundred dollars exist for Northern Michigan and Wayne State)—since the book closing payment will have to be recognized in the universities' institutional 2005-06 fiscal years. These amounts offset the \$13.8 million FY 2004-05 restoration received by the universities following the May revenue conference.

(2) Increases totaling \$6.9 million for Grand Valley, Oakland, and Saginaw Valley to establish a funding floor of \$3,650 per FYES. The increase for Grand Valley was capped at \$3.1 million to stay within the funds allocated for this purpose under the FY 2005-06 budget target agreement.

(3) Increases totaling \$7.0 million for 13 universities to reflect the use of a revised version of the House-passed funding model to determine July and August monthly payment amounts. (A detailed technical explanation of the enacted version of the funding model is available at <http://www.house.mi.gov/hfa>.) Pursuant to boilerplate language, the payments made by the state to the universities in those two months will be based on the funding model.

Table 5 shows the monthly payment amounts to be paid to each university for the periods of July/August (when the funding model will be utilized to allocate funds to the universities) and October to June (during which time nine equal payments of the remaining funds appropriated for each university will be paid out).

Table 6 shows a comparison of state funding that will be received by the universities in FY 2004-05 and FY 2005-06. This comparison is referenced in item (1) above.

B. TUITION RESTRAINT

In FY 2004-05, approximately 6.0% of each state university's appropriation was appropriated contingent on tuition restraint. For FY 2005-06, the Governor retained the same funding amounts contingent on tuition restraint and included boilerplate language requiring universities to restrain their resident undergraduate tuition and fee rate increases to 5.0% or \$307, whichever is greater. Pursuant to a leadership agreement as part of Executive Order 2005-7 negotiations, the House, Senate, and Enacted budget instead included language stating legislative intent that universities increase their institutional general fund financial aid spending at at least the same rate as their resident undergraduate tuition and fee rates and rolled the funds previously appropriated contingent on tuition restraint back into the universities' operations line items.

Table 7 shows the information submitted by the 15 state universities pursuant to this language. All universities except Michigan Tech reported higher increases in proposed general fund financial aid expenditures than in their tuition and fee rates.

C. KING-CHAVEZ-PARKS PROGRAMS

The Governor recommended the same overall funding level for the King-Chavez-Parks Programs but proposed that the funds appropriated as part of the state universities' operations line items be moved into a stand-alone line item for competitive grants. The House eliminated all funding for the programs. The Senate retained the FY 2004-05 funding structure, appropriation amounts, and boilerplate provisions. The Enacted budget concurs with the Senate.

Tables 9A and 9B provide details on the funding amounts for all six of the King-Chavez-Parks Programs. Funding for three programs is included in the universities' line items; funding for the three other programs is appropriated in stand-alone line items.

D. INDIAN TUITION WAIVERS

Funding for Indian Tuition Waivers continues as a part of the base appropriation for each university. Table 8 lists the amounts that were added to the base in FY 1996-97.

E. NATIONAL CHARTER SCHOOLS INSTITUTE

Funds were added to Central Michigan University's appropriation line item in FY 1996-97 for the National Charter Schools Institute. The Governor and House removed the \$500,000 GF/GP allocation for this purpose from Central's appropriation, along with boilerplate language requiring a report on the institute. The Senate retained the funding but also eliminated the boilerplate language. The Enacted budget concurs with the Senate, with the intent that this funding amount continue to be used for the institute.

F. AGRICULTURAL EXPERIMENT STATION (AES) AND COOPERATIVE EXTENSION SERVICE (CES)

The Governor reduced the AES line item by \$3.3 million (10.0%) and the CES line item by \$6.7 million (23.4%). The House, Senate, and Enacted budget retained the current-year funding levels of \$33.2 million GF/GP and \$28.6 million GF/GP.

G. MIDWESTERN HIGHER EDUCATION COMPACT DUES

Public Act 195 of 1990 entered Michigan into the Midwestern Higher Education Compact, the purpose of which is providing better Higher Education opportunities and lower-cost services in the Midwestern region. The work of the compact is financed through annual member state dues of \$90,000 and foundation grants. The Governor did not recommend a dues payment for FY 2005-06. The House, Senate, and Enacted budget included the \$90,000 GF/GP appropriation for the dues.

H. COLLEGIATE EMPLOYMENT RESEARCH INSTITUTE

The Senate added \$100,000 GF/GP for Michigan State University's Collegiate Employment Research Institute to collect job placement data from the 15 state universities. These funds were not included in the Enacted budget.

I. STATE COMPETITIVE SCHOLARSHIPS

The amount of federal funds appropriated for this program was reduced by \$1.0 million. Additionally, \$3.0 million in GF/GP funding for the program was offset with funds available from the Michigan Higher Education Assistance Authority's (MHEAA) operating fund. The House had appropriated a total of \$20.0 million from the MHEAA operating fund in its version of the budget.

J. TUITION GRANTS

The Governor recommended elimination of the \$61.8 million appropriation for this need-based grant program for students attending independent colleges and universities. The House included a reduction of 2.0%, and the Senate included a reduction of 4.9%. The Enacted budget concurs with the Senate amount, equal to a \$3.0 million reduction. Additionally, carry-forward revenue of \$4.0 million from the FY 2004-05 appropriation for the program is used to offset GF/GP funding of the same amount in FY 2005-06. Boilerplate language was added requiring that the maximum grant award be set at no less than the FY 2004-05 level of \$2,000.

K. WORK STUDY, PART-TIME INDEPENDENT STUDENT PROGRAM, AND MICHIGAN EDUCATION OPPORTUNITY GRANTS

The House eliminated the \$12.0 million GF/GP in funding for these three campus-based financial aid programs. The Enacted budget includes current-year funding levels for all three programs.

L. MICHIGAN MERIT AWARD PROGRAM

The Governor increased total funding for the program to \$121.0 million (Merit Award Trust Fund); this adjustment is necessary due to a statutory change in the program's appropriation schedule that allowed for savings of roughly \$60 million in both FY 2003-04 and FY 2004-05. The Governor's recommendation did not include funds for middle school or out-of-state awards. The Governor also proposed a New Merit Award for students completing two years of postsecondary education to begin with the high school class of 2007; payment of these new awards would not occur until FY 2009-10.

The House added \$9.0 million above the Governor's recommendation to fund the middle school awards.

The Senate included total funding of \$101.3 million based on assumed program changes that would have reduced award payments in FY 2005-06; the savings of \$19.7 million compared to the Governor's recommendation was used to offset GF/GP funds for financial aid.

The Enacted budget includes total funding of \$126.4 million for the estimated costs of the program. This estimate includes funds for middle school awards but not for out-of-state awards.

M. TUITION INCENTIVE PROGRAM (TIP)

The Governor recommended an increase of \$1.75 million (Merit Award Trust Fund) for a projected increase in program costs. The House did not include this increase. The Senate and Enacted budget concurred with the recommended increase. The Enacted budget also offsets \$5.4 million in Merit funds appropriated for TIP with GF/GP funds to balance the total amount of Merit funds appropriated with the Executive Recommendation.

N. BOILERPLATE ISSUES

1. **Monthly Payment Schedule.** The Enacted budget includes language providing for July/August payments to state universities to be based on a new funding model. (Sec. 212(1))
2. **State Competitive Scholarships.** The Enacted budget includes new language providing that Veterans Administration benefits not be considered in determining program eligibility. (Sec. 301)
3. **Tuition Grant Program.** The House moved the application deadline for the program from July 15 to July 1 and stated intent for earlier deadlines in future years. The Enacted budget retains the July 15 deadline but sets deadlines of July 1 and June 15 for the upcoming two fiscal years; also adds requirement for maximum grant amount of at least \$2,000 and associated reporting requirement. (Sec. 302)
4. **Tuition Incentive Program.** The Governor, Senate, and Enacted budget deleted the requirement for unexpended funds to be carried forward into the next fiscal year. (Sec. 310)

5. **Nursing Scholarship Program.** The Senate added language stating intent for universities to expand their nursing education programs (Sec. 313). The Enacted budget revises existing language to allow for expenditure of funds appropriated for any scholarship or grant purposes established in statute. (Sec. 312)
6. **State University Funding Model.** See item A above. House added language describing a new state university funding model. Funding model included enrollment-, degree-, and research-based components, with increases/decreases from the Executive Recommendation capped at 5.0%. Enacted budget includes revised version of language, with funding model utilized only to determine July/August payment amounts and all universities held harmless vs. the Executive Recommendation. States intent that, if funding model is used in future years, increases in federal research funding for universities capped under the research component in FY 2005-06 will be eligible for increased funding under the model. (Sec. 418)
7. **National Charter Schools Institute.** The Governor, House, Senate, and Enacted bill deleted the requirement for a report on the institute's activities. Per item E above, funding for the institute is retained in Central's line item. (Sec. 421)
8. **Tuition Restraint.** Language was revised per the agreement reached as part of executive order negotiations; see item B above and Table 7. (Sec. 436)
9. **Michigan Public School Employees Retirement System (MPERS).** The Senate, House, and Enacted bill refer to a subsidy of \$3.96 million. (Sec. 437)
10. **Per-Student Floor Funding.** The Governor and House deleted this language. The Senate added language stating that per-student floor funding of \$3,750 (based on FY 2003-04 fiscal-year-equated students) was reflected in the university appropriation amounts. The Enacted budget adjusts the per-student funding amount to \$3,650 and indicates that Grand Valley did not reach the floor funding amount due to limited state resources. (Sec. 450)
11. **Student and Presidential Housing.** The Governor, House, Senate, and Enacted budget deleted this reporting requirement. (Sec. 460)
12. **FY 2004-05 Book Closing Funds.** The Enacted budget includes language stating that funds appropriated in the FY 2005-06 budget for state university operations are in addition to funds anticipated for payment at FY 2004-05 book closing, which the universities will recognize as FY 2005-06 revenue. See Table 6. (Sec. 462)
13. **King-Chavez-Parks Programs.** The Enacted budget included a single boilerplate section providing for competitive grants. The House eliminated all language related to the programs. The Senate and Enacted bill retained current-year boilerplate provisions. (Secs. 501 to 507)
