

SENATE FISCAL AGENCY
MEMORANDUM

DATE: May 7, 2025
TO: Members of the Senate Appropriations Committee
FROM: Cory Savino, Transfer Coordinator
RE: Fiscal Year 2024-25 Legislative Transfer Request 2025-4

The Management and Budget Act (Public Act 431 of 1984) provides for two types of transfers: administrative and legislative. Administrative transfers allow adjustments for cost and price, certain fund sources, and for court judgments. Administrative transfers go into effect 30 days following the request unless rejected by the Senate or the House Appropriations Committee. Legislative transfers are transfers within departments that are more substantive than the cost and price variations that are allowed under administrative transfers. Additionally, there are two kinds of legislative transfers: "standard" and "contingency fund". Standard legislative transfers shift line-item authorization between existing line items in a department to reflect changes in either expenditures or funding sources, and do not change the total appropriation for the department.

The second type of legislative transfer is a contingency fund transfer authorized in the boilerplate of individual departments' annual appropriation bills. A contingency fund transfer moves authorization from the boilerplate section of an appropriation bill to the line-item section in Part 1 of the bill to realize additional Federal, private, local, or State restricted revenue that has become available since the initial enactment of the budget. Contingency fund transfers increase the total appropriation and funding source for a department and are capped in the boilerplate for each fund source. The additional funds may not be spent until they are available and have been transferred to a Part 1 line-item using the legislative transfer process created under Section 393(2) of the Management and Budget Act.

You should have received **Legislative Transfer Request 2025-4**, dated April 25, 2025, from the State Budget Office. The requested transfers will require approval of identical amounts by both the House and Senate Appropriations Committees before taking effect. The requested transfers would affect the following budget areas:
